

iTOP POWERBOAT PACKAGE:

All of our boat-top purchases include an initial consultation with our design team. This is your opportunity to discuss all aspects of your new boat-top design, including height, depth, color, additional options, and styling.

The iTop Powerboat Package Includes:

- 1-inch diameter stainless steel framework (.065 wall thickness)
- Heavy duty stainless steel fittings
- Forward and aft rigid support struts, stainless steel
- 9.25-oz. acrylic Sunbrella™ canvas
- 40 mil. SeaFlex™ UV resistant window material
- Complete removal of all window panels
- Forward and aft chafe guards
- Reinforced perimeter
- Side storage pockets*
- Overhead flashlight pocket with Mini-Maglite™.
- UV resistant heavy gauge stitching with SunGuard™ thread.

Additional Dodger Options and Upgrades:

The following selections are optional, and can be added to your order for an additional cost. Simply put a check-mark next to the option or upgrade that you would like to add, and we will contact you with further details.

Upgrades:

Choosing the following upgrades will increase the strength, durability, and quality of the materials used in the construction of your boat-top.

- 40 mil. Strataglass™ windows (scratch & UV resistant)
- 60 mil. Makrolon™ windows (aircraft-grade polycarbonate, for superior rigidity and clarity)
- 1.25-inch diameter stainless steel frame and fittings (added strength)
- Profilen™ thread for the stitching (greater UV resistance for longer life)

Additional Options:

Choosing these add-ons will increase the safety and usability of your boat-top.

- Side grab rails (increased safety, 1-inch diameter stainless steel)
Side grabs are also great for attaching rod-holders and/or wakeboard racks.
- Welded-on back grab rail (increased safety, 1-inch diameter stainless steel)
Back grabs are great for attaching rod-holders, radar mount extensions, or wakeboard tow rope.
- Aft strut grabs (increased safety, 1-inch diameter stainless steel)
- Forward strut grabs (increased safety, 1-inch diameter stainless steel)
- Solar panel bars (additional mounting place for your panels, radar, or other equipment)
- Window covers (extends the life of your vinyl windows)

Accessories:

These add-on accessory products are separate from the boat-top, but can be added for greater protection and comfort.

- Bow Cover
- Towing Cover
- Cockpit Cover
- Bimini Top
- Cockpit Enclosure System
