

Standard BOAT-TOP DESIGN:

All of our boat-top purchases include an initial consultation with our design team. This is your opportunity to discuss all aspects of your new boat-top design, including height, depth, color, additional options, and styling.

The Standard Boat-Top Package Includes:

- 7/8-inch diameter aluminum tubing framework
- 7/8-inch diameter black nylon plastic fittings
- 7/8-inch rigid aft support struts
- 9.25-oz. acrylic Sunbrella™ canvas
- 30 mil. roll vinyl window material
- Zip-open center windshield panel
- Removable side window panels
- Reinforced perimeter
- UV resistant heavy gauge stitching with SunGuard™ thread.

Additional Boat-Top Options and Upgrades:

The following selections are optional, and can be added to your order for an additional cost. Simply put a checkmark next to the option or upgrade that you would like to add, and we will contact you with further details.

Upgrades:

Choosing the following upgrades will increase the strength, durability, and quality of the materials used in the construction of your boat-top.

- 1-inch diameter stainless steel tubing and fittings (added strength)
- 1.25-inch diameter stainless steel tubing and fittings (exceptional strength)
- 40 mil. Strataglass™ windows (scratch & UV resistant)
- 40 mil. Crystal Clear windows (UV resistant)

Accessories:

These add-on accessory products are separate from the boat-top, but can be added for greater protection and comfort.

- Bow Cover
- Towing Cover
- Cockpit Cover
- Bimini Top
- Cockpick Enclosure System
